CURRICULUM

Computer technology is everywhere! In this day and age, our children are the “Digital Natives” while WE are the “Digital Immigrants”. Although that’s not going to change, the Computer Curriculum at SLKF strives to harness their aptitude and put it to use while incorporating the basic concepts of such things as: computer & internet safety, touch-typing, mousing skills, general office applications document creation, spreadsheets, presentations, as well as, music & video creation and photography.

GRADING

Every student’s grade will be based on several criteria: participation, application, effort, & creativity. Most assignments will be started in-class and finished in-class. If a student needs to have an in-class assignment finished in order to move on, they MAY have to finish it at home. If homework is assigned, it may require a parent or guardian’s assistance (ie. Internet based homework). Most handouts can be found online through ParentsWeb or will be emailed. Finally,

COMMUNICATION

Every student, from 1st grade through 7th grade, will have a Google G Suite for Education account. G Suite for Education is a set of education productivity tools from Google including Gmail, Calendar, Docs, Classroom, and more used by tens of millions of students and teachers around the world. Students will use their G Suite accounts to complete assignments and communicate with their teachers and peers. Since Google G Suite for Education has strict rules governing how this account can be used, rest assured that contacting a child from outside of the @slkfschool.com or @slkfcrusader.com domain is prohibited and will not be delivered.

Please feel free to email me at: emccrary@slkfschool.com should you have any questions or concerns or leave me a voice mail at: (504) 833-8224 ext. 1206.
